

*What everyone ought to know about South Africa's economy ...*

# **“Today You Are Poorer Than Yesterday Because The *US Dollar / Rand* Exchange Rate Is *Killing Us*” ...but it doesn't have to be that way !**

*Read here and you will find out how to  
turn R339 into say; about U\$4475  
in the next few days.*

Dear Friend,

There comes a time in every hard working person's life when he or she has to stand up and say, *"This is it - I've had enough - no more!"*

And that's the day when you decide to change your financial position for the better.

## **TODAY IS THAT DAY!**

Make no mistake; I know what it's like and you know too.

We all spend a lot of time just worrying and thinking about ways to improve our lives. Personally I have purchased a lot of books and attended many seminars on the topic of financial security.

I wanted to know how to protect myself, my family, and my assets against another local or worldwide recession. In the last recession, I really got badly "burned" and lost a lot!

Like many others, we all know that another recession is on the horizon – even Warren Buffet – one of the biggest stock gurus in the world thinks so too.

Is the recession already here? Are we entering it now? Is it today...is it next week?

## I DON'T KNOW...

But it doesn't really matter anymore...not to me at any rate and soon you won't care either. Read on and I will explain.

## "Here is what's Standing Between You and Financial Freedom"

The ability to "beat" the ZA RAND, no matter what happens with global currencies. Whether they go up or down against the Rand, you have to find a secret that will make you money either way.

## AND I FOUND IT....

It sounds crazy, I KNOW, but just give me a minute and I will show you exactly what I mean.

Like you, I thought the same – here we all are – at the southern tip of Africa – in the 21<sup>st</sup> century, bruised and beaten by situations beyond our control.

But then something happened that rocked me to my very core.

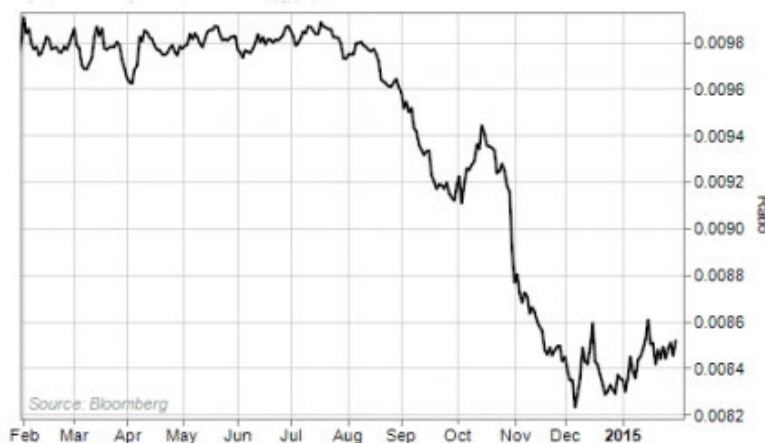

And maybe you can relate to this... One day it seemed like everything was fine. I was working hard, doing my job, paying my taxes, investing my hard-earned money responsibly, and without any warning whatsoever, my investments where basically wiped out.

I was particularly sad about my investment properties, which lost 25% of their value in a few weeks. My stock portfolio was cut in half, and my monthly income was down 35%.

I can't even begin to tell you how the last recession burned and shocked me – and all that I was trying to do is look after myself and my family. Yes, in hindsight, I should have been more careful and all that stuff... But it doesn't really matter how you do the calculations; I would have lost most of my assets in any case. I (Bloomberg) even did a financial analyzes till Feb 2016 to proof it...

THIS really was the proverbial wake-up call. Because suddenly I realized I had to forget about just earning ZA Rands. As sad as it is, the **South African Rand** is just not going to cut it for most of us who already live in a "First World Country" on a 3<sup>rd</sup> world continent.

Don't get me wrong; I'm not a pessimist, far from it! I love South Africa and all its people, but if I had stuck to only earning *Rands* the last few years I would probably have lost everything and ended up dead broke, beyond recovery, today.

So, I stopped messing around and I stopped dabbling and I started looking around me for solutions to double my income overnight by earning U\$ Dollars, Euros or British Pounds.

It was amazing but believe me, it wasn't always easy. I quickly found out, with a shock, that the learning curve is steep, especially if you try it alone.

I had no one to show me the ropes and when you're trying to do everything yourself through trial and error it is hard.

Yes, I made a lot of mistakes and wasted a lot of time and money. But I did it. In just a few months I went from hardly being able to pay my bills to investing in properties again – but this time in Spain, London, the US, and yes in South Africa too, but with cash and with the knowledge that I know exactly where to get more money quickly.

Take a look:

So believe me when I say I know how bad it is to be in a difficult financial situation. For a long time I was also lying awake at night wondering what tomorrow will bring. But once I discovered the secret of earning an income from OUTSIDE South Africa, while still enjoying the company of my friends and family, the sunshine and beauty of this country, nothing could stop me.

Today I want to help you. I want to share EVERYTHING WITH YOU - the same secrets that made me proud to stand on my own two feet again.

I want you to learn from the mistakes I made and the trial and errors I had to go through, so that you don't have to make them.

I am thrilled to announce and give you: **Make International Money - How To Videos**

**Make International Money - How To Videos** is a quick and easy way for you to BEAT the falling Rand by earning US Dollars, Euros and Pounds while sitting in your favorite armchair, at home, right here in South Africa.

Forget about the stories and notions that “everything will be okay.” It will not be okay and I think deep down you already know that.

## ASK THE GREEKS...

They will tell you how it feels if the government closes the banks, ATMs and money coffers, leaving you without a dime for days on end. Ask them... I have!

I'm not saying that what happened in Greece will happen here, no honestly, I don't think it will, but I can and I will tell you THIS.

Every time the Rand loses a cent against the U\$ Dollar (or any other currency), you are getting poorer, by the minute! You may not feel it immediately but you WILL feel it soon – I can promise you that!

## BUT HERE IS THE GOOD NEWS

If you accept my invitation today and watch my **Make International Money: How To Videos**, you can look forward to a GREAT future. Not because I say so but because once you know and understand how to earn **International Money** you will never again have to deal with financial difficulties or the impact that it will have on your assets just because of the falling Rand.

**Make International Money: How To Videos** is a detailed, step-by-step, no-fluff blueprint that will show you exactly how to earn Dollars, Pounds and Euros – easily and quickly.

Just imagine: No more financial shocks - No more worries!  
And never again will you have to deal with a situation you can't control.

Go ahead, imagine how you'll feel when you finally realize that YOU are in control. You will be able to earn Dollars when the Rand weakens, or you will earn Pounds or Euros when the *Dollar* weakens.

Yes, you will make money both ways.

And just think of what your spouse, your kids, your friends and colleagues will say once they see how "cool and calm" you are when things go "bad" on the Money Markets.

You can bet you'll feel "on top of the world", just like many others who have already followed the exact same easy steps I will teach you in **Make International Money: How To Videos**.

Maybe you'll feel like *Amy Scott* who lost everything when the company she worked for went *belly up* and she had to find a new way to earn a lot of money very quickly.

Afterwards Amy said: *For me personally, earning International Money was not that hard – I just did what I did in South Africa, but this time around I earned ten times more for the same job because of the exchange rates.*

Look, there is no question in my mind that you could be the next success story – all you have to do is to follow the easy steps I will show you.

In as little as a few weeks you too could earn International Money instead of only one currency that weakens, falls, and fluctuates daily to make you poorer every time someone else in the world has a hiccup.

## **IT'S NOT FAIR AND YOU DON'T HAVE TO TAKE IT ANYMORE...**

All you have to do is watch the Make International Money: How To Videos and finally you will discover the TRUTH about earning International Money from the comfort of your own home.

Trust me; you are going to love it!

**Let me answer a few questions before I ask you to submit the order form.**

You can even earn your first US Dollar(s) within a week or two. I will show you EXACTLY what to do – and you will only need maybe two or three hours a week.

Let me put it this way: When you see how easy this is, you will wish you knew about these secrets years ago!

### **Tell me more...**

I don't want to spoil the surprise here and frankly I don't think it is fair to give this away like candy. This is not some "magic card trick" I can show you in two minutes – you need to take a few steps of your own and you need to understand a few strategies for getting stuff done quickly so that you can earn your own fortune fast.

But some of the things I will show you work so well you'll think it's magic!

I can tell you THIS: By the time you see the last video in this package you'll feel like you have a PhD in **International Money Making**, and at last, you'll finally have everything you need to build an income and business you can love and cherish.

One last thing before I close this letter - if you're looking for some rehashed theory or a pile of *fairy dust* then I'm sorry, this isn't it. I can't help you with a magic trick to win the lotto or bet on the horses.

But if you're looking for a surefire way to get **International Money** paid directly into your bank account (right here in South Africa) then this is what you have been looking for your entire life.

### **BUT IT GETS EVEN BETTER. BECAUSE...**

## WHAT DOES TRUE FINANCIAL FREEDOM MEAN TO YOU AND WHAT IS IT WORTH?

If you're like a lot of people, you've probably already spent hundreds or maybe thousands on trying to find a way to earn extra cash each month...right? But none of those products or ideas gave you the results you wanted... am I right?

Well, I'll tell you...

I have already made enough money and I'm not doing this to make more money. In any rate, when you earn Dollars, Pounds and Euros it is not hard to turn them into lots off "RANDS" – I mean lots; really really lots....but don't take my word for it – you will soon see for yourself.
