- Damn smart business ideas.
- A good plan and expert advice.
- An extraordinary system with brilliant tools *to make the magic!*

In a nutshell, that is all it is; and it's YOURS to take!

What I'm about to give you is something that every single business owner NEEDS, very few have them, most want to them and those who need them can't wait to pay for it!

Trust me when I say that most are standing with the cash in their hands, right now, waiting to give it to you!

Believe it, I've done it!

The license you will receive will earn CASH so quickly it will make your head spin!

## What am I talking about?

I'm talking about teaching you one of the MOST WANTED skills in the world in one single day! Millions of business owners all around the world urgently need it!

I am going to give you the opportunity to look over my shoulder and I will show you *how to make magic!* It is called: **Editing Special Logos to Brand Businesses & Everyday Products!**

Until recently this special SKILL (to make & edit these types of logos) was so hard and expensive to come by that most business owners simply had no choice but to spend ten's of thousands to get the job done.

They still do it today because they have no other choice – they don't have what I am about to give you and they don't know the secrets that you are about to see!

Give me a second to explain why this is - and why these special logos are currently in such a big demand - for both **BIG** and **small** businesses.

**In today's online world, a perfect "images" and smart branding is everything...**

**Ask Any Chef Executive Officer (CEO) or Small Business Owner – They Will Say:**

*"It doesn't matter what you sell or who you sell it to - if your logo and brand doesn't **shine** enough you will have a hard time selling it - especially if you try to do it online."*

**It is true:** whether you like it or not – people still *buy-a-book-by-its-cover*.

Yes, it is unfair – but what are you going to do? Ignore the facts? Cry about it? Tell your wife, girlfriend or man about it?

**NO!**

Companies and Small Business owners who want to succeed understand this. They face the facts every day and are disparately trying to *FIX* every single product logo they have.

Remember: Big companies have 1000's of products. When they do business online or want to sell or brand a product separately, they need a lot of logos!

**AND THIS IS WERE YOU COME IN...**

By the time you finished reading this letter, I am going to give you:

**An Entire Collection of 301 Eye-Popping,  
*Ready-Made Logos!***

With your new license you will be able to use them to help businesses.

You will help them **brand** themselves and to showcase their **products** in a very smart way!

**Simply let them choose the logos they like – customize (edit) it in about 4 minutes, and you get paid...in cash!**

Look, designing business logos or specific product logos from scratch is painfully difficult.

It takes a lot of time and effort if you are not trained to do it. Even if you are a trained professional designer – it still take hours.

But if you already have the master designs and all you have to do is EDIT the master logos, it will take you about 4 minutes to do one logo.

The customization (edit) of the **PIZZA** logo below took about 3½ minutes. It will easily sell for R1350 – in fact, it did. It is a bargain for the Pizza Plaza and you will soon see why!

Look – to design from scratch just takes to long - you will spend hours trying to think about what types of images, fonts or colors to use – and you will still not know if it will work for the client!

And frankly, business owners can't do the designed themselves – even if some of them think they can. You can spot *"I have done this logo myself"* from miles away. Business owners would be better of spending their time on more immediate tasks in their businesses.

**But here is the thing.** Logos are critical - logos represent an entire business brand.

THAT is why every business owner need to make sure they have a professional-looking logo that symbolizes their image, business missions and products!

Now obviously, if you are a business owner, the easiest way to get logos made is to hire a BIG professional design studio. All you have to do is give them a call and pay them...right?

**WRONG!** Look on the next page what some designer's typically charge – and this is on the *cheap side* of the scale!

<p>When we design your logo, you will be given several exceptional different ideas and extraordinary concepts to choose from. Once you have made your decision, we then fine tune your logo until you are 100% satisfied!</p> <p><b>Logo Design: R3600</b> →</p> <p>includes:</p> <ul style="list-style-type: none"> <li>• Various unique logo design ideas</li> <li>• 5 x revisions to the selected concept</li> </ul>	<p>A good corporate Identity allows your company to convey its purpose and message and sets it apart from the competition.</p> <p><b>Corporate ID Package: R4800</b> →</p> <p>includes:</p> <ul style="list-style-type: none"> <li>• Various unique logo design ideas</li> <li>• 5 x revisions to the selected concept</li> <li>• Final files including vector &amp; web file formats</li> </ul>

[I'm not making this up – there is no “PhotoShop Trickery” here. This is an actual snapshot taken from a local designer’s website in Cape Town. I’m sure they do a good job, but the bottom line is, it is expensive]

Yes, I am also sure that if you are the CEO of a HUGE corporate company; paying R3600 or R4800 for a LOGO is nothing – you can pay it from petty cash.

But when you are a small company or a start-up business, paying R3600+ for one LOGO is not a smart move: unless you have deep pockets.

## THE FLIP SIDE IS THIS...

Every product and company BRAND is important; one can't just draw any picture and say: “This is it...here's is my logo...”

**NO!** It doesn't work that way  
and you know it!

That is why this is such a good opportunity.

When you say YES today, tomorrow you are going to help every business owners in your local area, **or if you like, country wide**, to choose and pick new and smart logos for their products and services.
