

How to Build **Android Apps** in Less than 2 Hours [Without Any Coding] and **Earn R2000 or more...**

This is for real - a 100% genuine *once-in-a-lifetime* opportunity to tap into a billion-dollar market as easy as pie. Two (2) hours work = R2000 or more, every day, every week, every month.

Very few people know about this – so pay attention – you may never see this opportunity again.

In the next few minutes I am going to show you how to create amazing Android Apps from scratch and publish them on the Google App Store.

You can do this for yourself and monetize your own apps to start making money immediately without knowing how to write a single line of code!

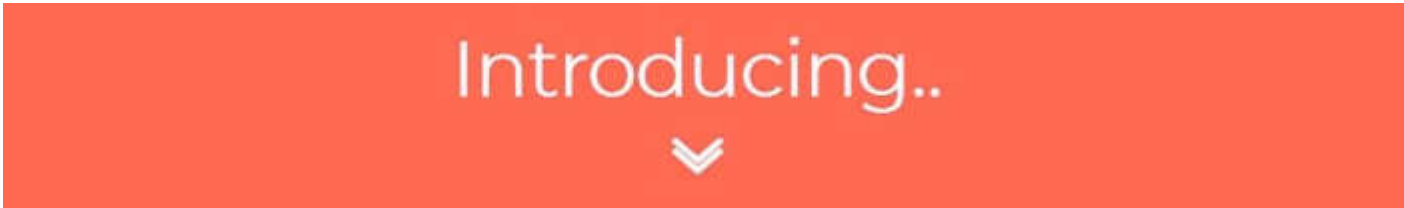

The demand for new apps has tremendously increased in the past few years. There are simply not enough developers on this planet that can deliver on this demand.

The Reasons Is Obvious:

Millions of small business owners, bigger local businesses and even freelance entrepreneurs need Android Apps to help them improve their marketing outreach.

These business owners are clever people because they understand that with the right App, they can stay connected with their customers and grow their client base.

Bottom Line Is, They Need Your Help And They Need It Fast...

CREATE AMAZING **ANDROID APPS** WITHOUT A SINGLE LINE OF CODE, PUBLISH THEM ON GOOGLE'S APP STORES AND **GET PAID**...IMMEDIATELY!

You are about to get access to this *No Bull S*#t Android Development Video Course* that will show you exactly, step-by-step how to create stunning apps within hours AND how to publish them on the biggest App marketplace in the world.

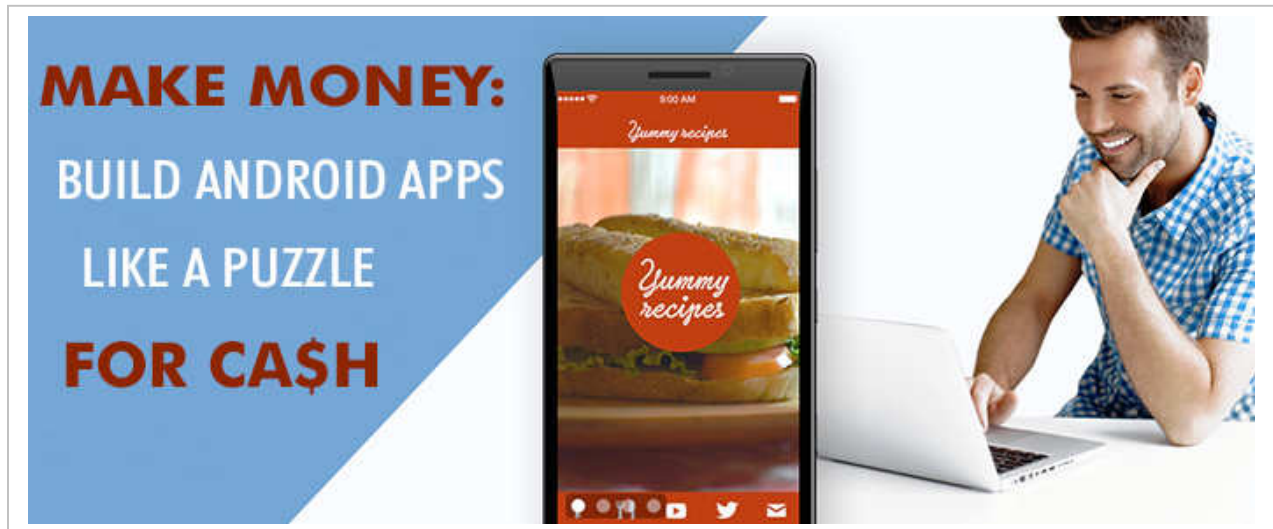

All you need to know for now is that, if your App is for global use, you will get paid in US Dollars or UK Pound Sterling – maybe even both. It can be as much a \$10 000 or as little as £1.

But the easy money continues... the local demand for Apps in South Africa is bigger than you can imagine. Your task is easy – let me show you how to build Android Apps for local businesses on request and collect R2000 or more for each one you deliver.

This will be easy because you will be able to cut your competition quotes with 500% or more. Entrepreneurs and business owners will line up on your doorstep to give you their money, day-in-and-day-out!

Don't worry, it is easy. I made these videos for the absolute beginner who knows nothing about programming, coding or any technical stuff. In fact, if you can *Copy & Paste*, you will soon be a professional Android App creator... and you will achieve this by the end of next week.

Make no mistake, this is a brilliant step-by-step **14 Part Video Course** where you will learn:

- ✓ The core essentials that you need before you start creating an App.
- ✓ The elements of an App, and how to deploy them.
- ✓ Creating a database and connecting your App to it.
- ✓ Sourcing royalty free images, icons, and content, and using them in your App.
- ✓ Make your App look unique with the help of these special graphics.
- ✓ How to test your App to see if it works the way you want it to work.
- ✓ The process of getting your App published in the Google App store.
- ✓ Simple steps to monetize your App so that you can make money on ads too.
- ✓ And a ton of more tools, tips, and ideas that will sky-rocket your new App creation business to success in the stratosphere.

Businesses Are Paying From R5 000 To R25 000 For A Single App. Imagine The Amount Of Money You Can Make By Creating Apps For Clients.

THE TRUTH IS: If you are struggling to keep up in today's very difficult economic climate, then you need an extra income that is high paying to support you.

Trust me, nothing does it better than creating your own Android Apps and to publish them on Google's App Stores. Or building them for local business owners.

This is your gateway to make your mark in the business world and you can start today on a part-time basis.

BEFORE LONG: *You Will Set-Up Your Own Professional Android App Development Agency.*

When you reach this point you will do this on a full time basis. You will employ people and put them on your payroll. They will be there to help you so that you can take it easier!

THINK ABOUT IT: What will you do with an additional R500 000 or more in your bank account today?

Here is what I know. If you can build a puzzle and if you can Copy & Paste with a mouse, you can build Apps after watching these videos. Your task is to spend a few hours a week to create amazing Android Apps for local businesses or for yourself to publish on Google App Stores.

BUILD IT AND THEY WILL COME...
